PERFORMANCE matters

I have used ABS **Sexcel™** semen on my heifers and second lactating cows, 30 in number and got over 65% conception rate. Earlier I had challenges in finding semen from good sires but with sexed semen from ABS genomic bulls my dream has come true. It brings huge relief from unwanted male calves. I will continue to use ABS Sexcel higher genetics in future.

Harpreet Singh
Dera Baba Nanak
Gurdaspur, Punjab

I have used ABS **Brute** and ABS **Hotstar Sexcel™** semen and am excited with its amazing results on my heifers and lactating cows. With 18 confirmed pregnancies out of 20 animals, it has far exceeded my expectations.

Thanks to **ABS Sexcel™** for helping fast track genetic progress of my farm with top genomic sires

Kuldeep Singh
VPO Dabrikhana, Jaito
Faridkot, Punjab

Having used ABS **Sexcel™** semen and getting very high conception rate, I am extremely happy to exceed my target for pregnancies: 61%. Usage of genomic bulls sexed semen will not only help me create top heifers, grow faster with increased productivity but also provide more options with surplus heifers and freedom from male calves.

I am very satisfied and would be using more and more of **ABS Sexcel™**
